

MtSM Transformation Home Information

MtSM Mission Statement:

Offering hope and new beginnings to young adults who want to be free from addiction by providing mentoring, discipling and transition assistance.

MtSM Housing Vision Statement:

MtSM seeks to provide a safe, drug and alcohol free living environment along with mentoring, discipling and transitional assistance for those coming out of incarceration or rehab in order that they might have continued freedom from addiction.

Our mission with transitional housing is to provide a safe, grace based living experience for those who are learning to live life outside of addiction. Our target group are those in early recovery who need a place to live as they maintain sobriety and find healing from the wounds that have contributed to the cycle of addiction.

We want to equip and empower these individuals to live life with God and to make the changes necessary to live an abundant and purposeful life.

Who we are...

Transformational Living Program

Our homes are gender specific, not co-ed.

We are clean and sober living. We have a daily schedule and we are a three-phase program. Our goal is to launch each individual to a life of success by the time they have completed the last phase.

Our homes are grace based. We recognize that as someone is coming out of a life-style of addiction they will make mistakes. We will help them overcome these mistakes and transform the way they think, learning to live outside of addiction. This does not mean relapse will be tolerated.

When someone has been in a life-style of addiction for a long period of time, they generally lose their identity.

What do they like to do for fun, a career, family?

This program assists residents in finding out who they are in Christ as well as what they like to do as individuals. We want to help them discover their giftings.
